DEAD ON THE TRACK

An Old Man Was Found Early This Morning.

HAD BEEN HIT BY A TRAIN

The Remains Were In Charge of the Township Trustees, but Every Effort to Find the Unfortunate One's Friends Was Without Avail.

The dead body of a man was found on the Cleveland and Pittsburgh railroad track not far from the Thompson pottery this morning.

Jerry Delaney was walking up the railroad at 1:15 this morning when he was startled at seeing a dark object across the rails. A second glance convinced him the first impression was right, and hastening to the pottery he told his story to Smith Calhoun, night watchman. Together they viewed the body, and having no desire to move it, flagged the passenger train west as it came down the track. A brakeman alighted, and the body was lifted from the rails. A telephone message was sent to the fire station, and a patrol alarm was turned in from the National House. Officers McMillen and Terrence hurried to the scene with the wagon, and acting under the instructions of Mayor Gilbert took the body to the undertaking rooms of J. D. West. The officers found nothing in the man's pockets but a knife with a pearl handle, a piece of tobacco, a box of snuff, and \$5.92 in money. There were no papers.

The man had, beyond question of doubt, been hit by a train. A large hole in the back of his head allowed the brain to ooze through, and a ragged wound in his forehead was in itself sufficient to cause death. There were a number of other cuts about his head. The body was bruised.

The township trustees took charge of the remains, but could find no one who knew the man in life. The body shows a man 5 feet and 9 inches in height, and perhaps 50 years of age. His hair is black, whiskers gray and eyes blue. He wore cheap trousers, black coat and vest, light shirt with blue stripe, white underwear, dark blue woolen stockings and soft hat. The trousers were torn.

Hundreds of people saw the remains today, but no one could identify the man. David Anderson and Robert Harker saw a man answering the description staggering about in Cook street about 11 o'clock last night, and a number of saloonists in the lower part of the city remember seeing him about the saloons yesterday afternoon. The trustees arranged for an inquest this morning, but Squire Rose was out of the city and Squire Manley is ill. It was decided to have Mayor Gilbert conduct the inquest tonight.

F. C. Karcher, a blacksmith residing in the lower part of the city, identified the dead man as James Bailey, an old soldier who lives a few miles from Wellsville. According to his story he knew Bailey very well, but had not seen him for 20 years until yesterday. They were in Hancock's saloon until 9 o'clock in the evening when Karcher went home, first advising Bailey to spend the night there. Bailey said he would take a car for Wellsville, and left the saloon. He has several sons who are coal miners. Chief Warren, of Wellsville, was notified, and came to the city, but failed to identify Bailey.

ASSOCIATION AUDITORIUM.

The Opening Night Was Indeed a Charming Success.

The entertainment at the Young Men's Christian association headquarters, Fifth street, on New Year's eve, was indeed a flattering success, and the hearts of the officials and members must have been bounded with joy. There were fully 600 people in attendance, it being found necessary to carry additional chairs into the auditorium, which seats 576 persons.

The Swedish quartet has always been popular in East Liverpool, and they lost none of this popularity on the present visit. The songs rendered were charming, and elicited the very heartiest applause.

Miss Webb is a charming violinist, and she must have been delighted with the warm reception given and hearty commendation accorded her. She was the recipient of unstinted applause, and added to her laurels in this community.

Of course Miss Shoemaker made a hit—she always does. As an elocutionist she has few superiors. In her rendition of "The Confessional" she is a little too free in the matter of gestures; but, all in all, the recital was a very pleasing one, and received the plaudits of the audience. The lady gave a number of selections during the evening. Her dainty movements were simply superb.

It is very difficult to please an audience in this particular; but Miss Shoemaker won extremely hearty approval. Departing from the program of the evening, she gave, by request, "That Old Sweetheart of Mine," and gave it in a manner which could not fail to charm.

The Association auditorium was certainly opened up auspiciously, and if the committee in charge will but give East Liverpool a class of entertainments on a par with that of the Swedish quartet, then is the success of the course an absolute assurance.

A number of the members of the association worked like Trojans of old in order that the hall might be in readiness for New Year's eve. They will have their reward.

The Ladies' auxiliary have the lecture course in charge this season. The members, in common with the members and officers of the Young Men's Christian association, return heartfelt and sincere thanks to any and everyone who have in any manner assisted in making the possession of such a handsome building and hall a security, and they pray that God, the giver of all good gifts, will bless and prosper these generous donors.

HATS OFF.

Ladies Are Requested to Conform to the Law.

On Thursday night, at the Association auditorium, Mr. Will Morris informed the ladies present that he had been instructed by the officers of the association to enforce the law respecting the wearing of hats, bonnets, etc., and that all headwear must come off; that the great state of Ohio says MUST, and MUST is the word. He was heartily applauded, showing plainly that the law in this particular is a popular one, and that the "hat nuisance" has become intolerable and unbearable. The very large majority of the ladies present at once removed their hats and bonnets, and the transformation was simply wonderful. Some wearers sat stubbornly unresponsive, however, and they were the subject of general condemnation, and had there been an officer present, he should either have caused the removal of the hats or the retirement of the wearers. One lady sat upright and defiant during the entertainment, and the lady sitting immediately behind her was compelled to twist hither and thither and all about, in order to see Miss Shoemaker in her clever drollery work. Several ladies came into the hall after Mr. Morris made his announcement and were not aware of the order. Of course these were excusable. The law must be enforced, and those who are unwilling to submit to it should stay at home, and not annoy and discommode those who visit desirable entertainments.

WEST END WALKS.

A Suggestion for Chairman Kent to Consider.

The condition of the walk from the Horn switch to Jethro is causing much complaint. Councilmen Ashbaugh and Peake have done all in their power to have the street improved, but council failed to agree with them, and the result is seen in a miserable excuse for a board walk. It is impossible to go along the street without accumulating a liberal amount of the city's soil. It was suggested by a leading resident that Chairman Kent of the street committee instruct Commissioner Finley to raise what remains of the board walk out of the mud, and purchase a few planks to replace those long since rotted away. The expenditure of a little money will work a wonderful change in the walk and in the feelings of West End people.

THE PERRINE COMET.

When the Smoke Clears Away It Can Be Seen.

C. D. Perrine reported Dec. 8 the discovery of a new comet, and astronomers all over the country have since been watching for the visitor. It is bright, being about equivalent to a star of the eighth magnitude. It has a small well defined nucleus and a short fan tail. Thomas Bott, of West End, has been searching for it through his telescope, but because of the haze has been unable to locate it. Its motion is southwesterly toward the constellation of Eridanus.

COVERED BY ORDINANCE.

Driving on the Sidewalks Is Not Allowed by the City.

Much complaint has been heard because teamsters persist in using sidewalks in various parts of the city as roadways, and wonder has been expressed that the authorities do not enforce the law. The ordinance specifically states that no person shall ride or drive any horse, mare, stallion, gelding, mule, ox or ass on any sidewalk under penalty of fine. The ordinance applies to paved or board walks, and if enforced would end what has certainly become a nuisance.

AN ENJOYABLE TIME

Woman's Relief Corps, Grand Army and Sons of Veterans

INSTALLED THE NEW OFFICERS

Music, Mirth and Jollity Make Up an Evening Long to Be Remembered With Pleasure—Nice Refreshments Served—The Corps Presented a Magnificent Bible to General Lyon Post.

The members of the Woman's Relief Corps, Sons of Veterans and Grand Army corps of East Liverpool had a splendid time last night at Grand Army hall. Installation services were held and officers installed by each organization for the ensuing year.

Previous to the general services of the evening, a committee from the Woman's Relief Corps presented a splendid Bible to General Lyon post, President McKinnon making a happy presentation speech, replete to by Post Commander McCloskey.

Short addresses were made by Reverend Comrade Reed, Reverend Salmon (who was formerly a member of the Sons of Veterans, and who should be associated with our own local camp), Captain Timmons, Comrade McGraw, Commander McCoy and several others, while little Miss Beale rendered a recitation in a manner which brought forth hearty applause.

Reverend Reed dismissed the audience with the benediction.

There were several old soldiers present last night who are not members of the Grand Army, but who should lose no time in becoming associated therewith, as it is one of the grandest organizations on earth today, and is doing much good for the old veterans and their families, nobly backed in this work by the Woman's Relief Corps and Sons of Veterans.

By the way, every son of a veteran in this city should become a member of Garfield camp, No. 3, and they should lose no time in enrolling.

NEW YEAR FESTIVITIES.

There Were Social Events Almost Without Number.

The Phoenix club entertained a great many of its friends at Brun's the last

night of the year. The arrangements were perfect, and the affair the most elaborate ever attempted by that popular organization. Among the guests from out of the city were Miss Kate Bear and Miss Mollie Sheal, Steubenville; Miss Taylor and Miss Swaney, Bethany; Miss Stafford, Peoria; Miss Lyon, Pittsburg; Miss Yeagler, Johnstown; Miss Anna Pugh and Miss Stewart, Fairview; Miss Georgia Dawson, Ohioville; Ira Smith, Wooster; H. W. Williamson, Springfield.

Miss Edna Cook entertained at her home Thursday afternoon.

The leap year party given at Bradshaw's by the Jolly Three was a pleasant affair. Miss Allie Davidson was given a ring and necklace by her friends.

Friends were entertained at the residence of Reed Ashbaugh, Lincoln avenue, last night, in honor of George Laird, of Wheeling.

A happy party were entertained at dinner last evening at the residence of J. M. Kelly, in honor of George Kelly.

Miss Sadie and Lillie McKenty last evening very pleasantly entertained a large number of friends at their home on College street.

Mr. R. E. Barnes and his sister, Mrs. S. M. Knuts last evening gave a dinner party in honor of Doctor Taggart and wife; Doctor Lee and wife and Reverend Green, of East End.

Sixteen young people were entertained at the home of Earl Cochran last evening.

GOOD NEWS.

There Will Be Abundant Work If This Be True.

The following is from the Pittsburg Post of Friday:

"The Cleveland and Pittsburg machine department at Wellsville will have steady work this winter from the present outlook. There are about 20 shifting engines to come from the Cleveland yards to that place to undergo a thorough overhauling and repairing. This will be a big job, and brings a smile to the boys of the machine shop. The caboose, too, it is said, will undergo repairs and will have new Janney couplers placed in them."

ELEVEN DIRECTORS

Will Be Elected by the Library Association.

Eleven directors to control the public library will be elected at a meeting to be held in the rooms of the organization at 8 o'clock next Monday evening. A committee from the active members will select 22 names from the roll, and 11 will be elected by ballot. It is especially desired that the members interest themselves in the election, since the choice of directors falls directly upon them, and the best material possible is needed to continue the success of the library.

LOCKED UP.

A Youngster Was Charged With Throwing Stones.

Officer Bertele arrested a lad named Weaver at the bridge yesterday afternoon on complaint made by Watchman Allen, who claims Weaver was one of a number of lads who threw stones at him. The boy was locked up until evening. He stoutly denied the charge made against him.

Mayor Gilbert had no cases this morning and believes the good resolutions made on New Year's day have not been broken.

GET YOUR PRIZES.

The Brotherhood Want the Names of the Holders of Tickets.

The Brotherhood fair committee have settled all their bills and pronounced the fair a success. The committee would like the holder of ticket 101, calling for the furniture set, to put in an appearance and claim his property. The rocking chair was won by 1168. Both articles are yet in the hands of the committee, and they want the owners to claim them.

ERLANGER-SAMLER.

The Wedding Is to Take Place in Philadelphia.

William Erlanger, Jr., left Saturday evening for Philadelphia, where he will be wedded to Miss Sophia Samler, of that city, on the evening of January 19, in Mercantile hall. Over two hundred guests are expected to be present at the ceremony. The happy couple will take a wedding journey, and will arrive in this city early in February.

SHOT IN THE HEAD

Percy Walper Came Near Killing Himself.

LOOKED INTO A REVOLVER

The Cartridge Exploded, and the Bullet Flat ended Against His Skull—His Forehead Is Very Sore Today, But He Will Recover.

Percy Walper, a well known young man, looked into the barrel of a revolver, and the next instant had a bullet in his head.

Walper, accompanied by W. C. Orr, entered the Manley restaurant on Sixth street, yesterday morning, and ordered breakfast. They were seated at a table when Walper looked down the barrel of a hammerless revolver he held in his hand, and the weapon was discharged. The bullet entered his head above the right eye, and plowing under the skin lodged at the side of his head. Blinded by the blood flowing from the wound Walper staggered to his feet while his companion and Mrs. Manley rendered what aid they could. He then walked to the residence of Doctor Bailey who accompanied him to his office where the bullet was extracted. Although of large size it was found flattened. Had it struck Walper an inch lower death would have resulted. After the wound was bandaged the young man returned to the restaurant for breakfast. The wound is jagged, and his head is very sore, but he will recover.

AN ENTERTAINMENT OF MERIT.

They have consented to give the entertainment to assist the Epworth league and Sunday school of the First M. E. church in raising funds for the purchase of a new piano, and they, wishing to give the people the benefit of the kind offer made by the faculty, have placed the admission at a merely nominal price, thus affording all an opportunity of hearing the following interesting program:

DR. TRACY IS HERE.

Don't Fail to Visit the Opera House on Sunday Night.

Evangelist Tracy is well and favorably known in East Liverpool, he carried on a splendidly successful meeting in the Fifth street rink some seven years ago. His life and conduct while here was simply irreproachable, in every particular, and the tongue of malice and hate failed to injure either himself or the gloriously grand cause he so ably espoused.

Doctor Tracy will be at the opera house Sunday night, Jan. 3, with his illustrated sermon, "Footsteps of the Prodigal Son." This sermon will be illustrated by beautiful allegories, the whole to conclude with the grand transformation scenes of the "Rock of Ages." A silver offering will be taken at the door for expenses.

DEAD ON THE TRACK

An Old Man Was Found Early This Morning.

HAD BEEN HIT BY A TRAIN

The Remains Were In Charge of the Township Trustees, but Every Effort to Find the Unfortunate One's Friends Was Without Avail.

The dead body of a man was found on the Cleveland and Pittsburg railroad track not far from the Thompson pottery this morning.

Jerry Delaney was walking up the railroad at 1:15 this morning when he was startled at seeing a dark object across the rails. A second glance convinced him the first impression was right, and hastening to the pottery he told his story to Smith Calhoun, night watchman. Together they viewed the body, and having no desire to move it, flagged the passenger train west as it came down the track. A brakeman alighted, and the body was lifted from the rails. The township trustees took charge of the remains, but could find no one who knew the man in life. The body shows a man 5 feet and 9 inches in height, and perhaps 50 years of age. His hair is black, whiskers gray, and eyes blue. He wore cheap trousers, black coat and vest, light shirt with blue stripes, white underwear, dark blue woolen stockings and soft hat. The trousers were torn.

Hundreds of people saw the remains today, but no one could identify the man. David Anderson and Robert Harker saw a man answering the description staggering about in Cook street about 11 o'clock last night, and a number of saloonists in the lower part of the city remember seeing him about the saloons yesterday afternoon. The trustees arranged for an inquest this morning, but Squire Rose was out of the city and Squire Manley is ill. It was decided to have Mayor Gilbert conduct the inquest tonight.

F. C. Karcher, a blacksmith residing in the lower part of the city, identified the dead man as James Bailey, an old soldier who lives a few miles from Wellsville. According to his story he knew Bailey very well, but had not seen him for 20 years until yesterday. They were in Hancock's saloon until 9 o'clock in the evening when Karcher went home, first advising Bailey to spend the night there. Bailey said he would take a car for Wellsville, and left the saloon. He has several sons who are coal miners. Chief Warren, of Wellsville, was notified, and came to the city, but failed to identify Bailey.

ASSOCIATION AUDITORIUM.

The Opening Night Was Indeed a Charming Success.

The entertainment at the Young Men's Christian association headquarters, Fifth street, on New Year's eve, was indeed a flattering success, and the hearts of the officials and members must have bounded with joy. There were fully 600 people in attendance, it being found necessary to carry additional chairs into the auditorium, which seats 576 persons.

The Swedish quartet has always been popular in East Liverpool, and they lost none of this popularity on the present visit. The songs rendered were charming, and elicited the very heartiest applause.

Miss Webb is a charming violinist, and she must have been delighted with the warm reception given and hearty commendation accorded her. She was the recipient of unstinted applause, and added to her laurels in this community.

Of course Miss Shoemaker made a hit—she always does. As an elocutionist she has few superiors. The lady gave a number of selections during the evening. Her delartean movements were simply superb.

It is very difficult to please an audience in this particular; but Miss Shoemaker won extremely hearty approval. Departing from the program of the evening, she gave, by request, "That Old Sweetheart of Mine," and gave it in a manner which could not fail to charm.

The Association auditorium was certainly opened up audaciously, and if the committee in charge will but give East Liverpool a class of entertainments on a par with that of the Swedish quartet, then is the success of the course an absolute assurance.

A number of the members of the association worked like Trojans of old in order that the hall might be in readiness for New Year's eve. They will have their reward.

The Ladies' auxiliary have the lecture course in charge this season. The members, in common with the members and officers of the Young Men's Christian association, return heartfelt and sincere thanks to any and everyone who have in any manner assisted in making the possession of such a handsome building and hall a security, and they pray that God, the giver of all good gifts, will bless and prosper these generous donors.

HATS OFF.

Ladies Are Requested to Conform to the Law.

On Thursday night, at the Association auditorium, Mr. Will Morris informed the ladies present that he had been instructed by the officers of the association to enforce the law respecting the wearing of hats, bonnets, etc., and that all headwear must come off; that the great state of Ohio says MUST, and MUST is the word. He was heartily applauded, showing plainly that the law in this particular is a popular one, and that the "hat nuisance" has become intolerable and unbearable. The very large majority of the ladies present at once removed their hats and bonnets, and the transformation was simply wonderful. Some wearers sat stubbornly unresponsive, however, and they were the subject of general condemnation, and had there been an officer present, he should either have caused the removal of the hats or the retirement of the wearers. One lady sat upright and defiant during the entertainment, and the lady sitting immediately behind her was compelled to twist hither and thither and all about, in order to see Miss Shoemaker in her clever delartean work. Several ladies came into the hall after Mr. Morris made his announcement and were not aware of the law. Of course these were excusable. The law must be enforced, and those who are unwilling to submit to it should stay at home, and not annoy and discommode those who visit desirable entertainments.

WEST END WALKS.

A Suggestion for Chairman Kent to Consider.

The condition of the walk from the Horn switch to Jethro is causing much complaint. Councilmen Ashbaugh and Peake have done all in their power to have the street improved, but council failed to agree with them, and the result is seen in a miserable excuse for a board walk. It is impossible to go along the street without accumulating a liberal amount of the city's soil. It was suggested by a leading resident that Chairman Kent of the street committee instruct Commissioner Finley to raise what remains of the board walk out of the mud, and purchase a few planks to replace those long since rotted away. The expenditure of a little money will work a wonderful change in the walk and in the feelings of West End people.

THE PERRINE COMET.

When the Smoke Clears Away It Can Be Seen.

C. D. Perrine reported Dec. 8 the discovery of a new comet, and astronomers all over the country have since been watching for the visitor. It is bright, being about equivalent to a star of the eighth magnitude. It has a small well defined nucleus and a short fan tail. Thomas Bott, of West End, has been searching for it through his telescope, but because of the haze has been unable to locate it. Its motion is southwesterly toward the constellation of Eridanus.

COVERED BY ORDINANCE.

Driving on the Sidewalks Is Not Allowed by the City.

Much complaint has been heard because teamsters persist in using sidewalks in various parts of the city as roadways, and wonder has been expressed that the authorities do not enforce the law. The ordinance specifically states that no person shall ride or drive any horse, mare, stallion, gelding, mule, ox or ass on any sidewalk under penalty of fine. The ordinance applies to paved or board walks, and if enforced would end what has certainly become a nuisance.

AN ENJOYABLE TIME

Woman's Relief Corps, Grand Army and Sons of Veterans

INSTALLED THE NEW OFFICERS

Music, Mirth and Jollity Make Up an Evening Long to Be Remembered With Pleasure—Nice Refreshments Served—The Corps Presented a Magnificent Bible to General Lyon Post.

The members of the Woman's Relief Corps, Sons of Veterans and Grand Army corps of East Liverpool had a splendid time last night at Grand Army hall. Installation services were held and officers installed by each organization for the ensuing year.

Previous to the general services of the evening, a committee from the Woman's Relief Corps presented a splendid Bible to General Lyon post, President McKinnon making a happy presentation speech, replied to by Post Commander McCloskey.

First came the installation work of General Lyon post, W. H. Surles acting as installing officer. The regulation ceremonies are very nice, and they were rendered last night in first class style. Officers for the ensuing year are as follows:

Then came the rendition of old army songs, by the Kalamazoo quartet, composed of old veterans, assisted by lady volunteers. The vocal efforts received hearty applause.

Short addresses were made by Reverend Comrade Reed, Reverend Salmon (who was formerly a member of the Sons of Veterans, and who should be associated with our own local camp), Captain Timmons, Comrade McGraw, Commander McCoy and several others, while little Miss Beale rendered a recitation in a manner which brought forth hearty applause.

Reverend Reed dismissed the audience with the benediction.

There were several old soldiers present last night who are not members of the Grand Army, but who should lose no time in becoming associated therewith, as it is one of the grandest organizations on earth today, and is doing much good for the old veterans and their families, nobly backed in this work by the Woman's Relief Corps and Sons of Veterans.

By the way, every son of a veteran in this city should become a member of Garfield camp, No. 3, and they should lose no time in enrolling.

GOOD NEWS.

There Will Be Abundant Work If This Be True.

The following is from the Pittsburg Post of Friday:

"The Cleveland and Pittsburg machine department at Wellsville will have steady work this winter from the present outlook. There are about 20 shifting engines to come from the Cleveland yards to that place to undergo a thorough overhauling and repairing. This will be a big job, and brings a smile to the boys of the machine shop. The cabooses, too, it is said, will undergo repairs and will have new Janney couplers placed in them."

ELEVEN DIRECTORS

Will Be Elected by the Library Association.

Eleven directors to control the public library will be elected at a meeting to be held in the rooms of the organization at 8 o'clock next Monday evening. A committee from the active members will select 22 names from the roll, and 11 will be elected by ballot. It is especially desired that the members interest themselves in the election, since the choice of directors falls directly upon them, and the best material possible is needed to continue the success of the library.

LOCKED UP.

A Youngster Was Charged With Throwing Stones.

Officer Bertele arrested a lad named Weaver at the bridge yesterday afternoon on complaint made by Watchman Allen, who claims Weaver was one of a number of lads who threw stones at him. The boy was locked up until evening. He stoutly denied the charge made against him.

SHOT IN THE HEAD

Percy Walper Came Near Killing Himself.

LOOKED INTO A REVOLVER

The Cartridge Exploded, and the Bullet Flat ended Against His Skull—His Forehead Is Very Sore Today, But He Will Recover.

Percy Walper, a well known young man, looked into the barrel of a revolver, and the next instant had a bullet in his head.

Walper, accompanied by W. C. Orr, entered the Manley restaurant on Sixth street, yesterday morning, and ordered breakfast. They were seated at a table when Walper looked down the barrel of a hammerless revolver he held in his hand, and the weapon was discharged. The bullet entered his head above the right eye, and plowing under the skin lodged at the side of his head. Blinded by the blood flowing from the wound Walper staggered to his feet while his companion and Mrs. Manley rendered what aid they could. He then walked to the residence of Doctor Bailey who accompanied him to his office where the bullet was extracted. Although of large size it was found flattened. Had it struck Walper an inch lower death would have resulted. After the wound was bandaged the young man returned to the restaurant for breakfast. The wound is jagged, and his head is very sore, but he will recover.

DR. TRACY IS HERE.

Don't Fail to Visit the Opera House on Sunday Night.

Evangelist Tracy is well and favorably known in East Liverpool. He carried on a splendidly successful meeting in the Fifth street rink some seven years ago. His life and conduct while here was simply irreproachable, in every particular, and the tongue of malice and hate failed to injure either himself or the gloriously grand cause he so ably espouses.

Doctor Tracy will be at the opera house Sunday night, Jan. 3, with his illustrated sermon, "Footsteps of the Prodigal Son." This sermon will be illustrated by beautiful allegories, the whole to conclude with the grand transformation scenes of the "Rock of Ages." A silver offering will be taken at the door for expenses.

Red Men's Officers.

The Red Men at their meeting Thursday night elected the following officers: Prophet, A. B. Roberts; sachem, J. R. Mace; senior sachem, Logan Zane; junior sachem, John Brown; chief of war, Charles Reark; chief of wampum, Sylvester Kinsey; keeper of wampum, Edward Geise; representative to great state council, Charles Reark; alternate, C. J. Martin; trustees, John Stamm, James Hall, Lewis Schobel.

EAST LIVERPOOL, O., SATURDAY, JAN. 2

HAVE you broken that new resolution, or are you waiting until the beginning of the new week?

THE Spanish editor who tells the truth concerning the war in Cuba is imprisoned. Yet Spain boasts of its civilization.

A RESOLVE to read the NEWS REVIEW every day of the coming year was among the very best resolutions made yesterday.

THERE are small hopes for Mr. Bryan. His lectures are not successful, and his silver talk bids fair to be equally discouraging.

THE position of President Cleveland toward Cuba and the Cubans is not adding to the place he will occupy in history as a great man.

JUDGING from the details of the latest story of the McKinley-Forsaker war one is prone to believe the Canton correspondents are suffering from a dearth of news.

WITH an increased revenue of almost a million dollars Ohio can start the new year without much thought of a howling wolf when the snows of December come again.

If those Democrats who make so much of every bank failure, would remember that Mr. Cleveland is still president, they could see the nonsense in their argument.

THE late Andrew Jackson will probably turn over in his grave when he learns that the Salem silver club is arranging to observe his anniversary with free coinage speeches.

THE manufacturing potters have a great claim for consideration in the new tariff bill, a claim which will result in increased wages and additional happiness in thousands of homes.

If the new year proves no disappointment the next twelve months will be a time of improvement and prosperity for East Liverpool. Only give us the conditions and our people will do the rest.

THERE is no space for trusts in this country, and the new administration can do no better than to enact the laws necessary to kill those already in existence and prevent others from formation.

WITH new shapes, new decorations, and grades of ware surpassing anything ever before sent out from the city, East Liverpool should in the coming year forcibly inform the importers of its existence.

THE keenest powers of discernment are not necessary to find the difference between the tariff hearings of today and those of a few years ago. Now the friends of American industry hear the evidence; then the manufacturers talked to the champions of Europe.

PROSPECTS.

The prospects for the coming year are, to say the least, encouraging. The national government will in a few months be in the keeping of men whose declared principles provide for an era of enterprise and prosperity. There may be conditions to prevent a complete realization of the hopes so fondly held by the thousands who have suffered and starved during the years when Grover Cleveland and his party were in power, but the present points to a brighter time. The country is as a patient recovering from a long illness. It cannot regain its strength in a day, nor yet in a month. The medicine must do its work, and the cure must be effected. With increasing strength, supported by the enterprise of the people and the resources of the land, there is no reason to believe that the new year will dawn upon anything but a happy nation. It only remains for all to join

heartily in supporting any reasonable measure tending to bring about this end.

THE WAIF'S OPINION.

Thought People Who Worked For Nothing Were Fools.

One of the modest blue of the Salvation Army, the other the ragged rament of the street wail. Both were girls, and both were selling papers. They came together on a Market street corner. The new girl eyed The War Cry lassie for a minute or two, and then sidled slowly up to her.

"How's biz?" she asked.

The girl in the blue uniform and poke bonnet looked at the little tot in surprise.

"Not very good," she answered after a moment.

"Folks ain't buyin de papers very swift, eh?"

"I'm not selling many War Crys, if that is what you mean."

"Does yer have ter stay out till yer sells 'em all?"

"No, I don't have to, but I generally do."

"Take yer a long time ter-night, eh?"

"Yes, I'll be out very late, I expect. I'm awfully tired too."

That seemed to determine something the ragged one evidently had been turning over in her mind.

"I only got a couple more papers left myself," she said, "an if yer don't mind I'll help yer out."

The novelty of the proposition or a desire for assistance caused The War Cry lassie to accept the proposition, and half of the Salvation papers were turned over to the new girl. The latter started in to work vigorously, and pretty soon had the other girl's papers going like hot cakes. Ragged newsgirls don't often peddle War Crys, and the people she approached appreciated the fact enough to avail themselves of the opportunity.

In perhaps half an hour the ragged one returned to The War Cry girl minus papers, but with a little list full of nickels.

"Say," she said, "it's dead easy! Wish I could sell 'em all de time. Is dere much in it?"

"Oh, my, no!" The War Cry girl explained. "I don't get paid anything at all."

The 'newsy's' eyes opened wide in surprise. Then she voiced her opinion:

"Den yer mus' be as easy as sellin de War Crys was. I'm goin now. Goodby!"—Philadelphia Inquirer.

IRON BAR 2,000 YEARS OLD.

A Portion of It Is Owned by the Iron Chancellor.

S. T. Wellman, the metallurgist of Cleveland, has a portion of a round bar of iron—and a few like pieces are held in the United States—that antedates the Christian era by two or three centuries. The iron, which had been originally hammered into plates and was deeply rusted from age, was found a few years ago by Dr. Karl Humann in the ruins of the temple of Artemis Leucophrone, at Magnesia, Asia Minor. Dr. Humann sent it to Hallbauer, in Germany, and the latter made from a portion of it a memorial tablet. This was presented to Bismarck in April, 1894. It bore this inscription in German: "For you, Prince Bismarck, the Iron Chancellor, Hermogenes forged this iron at Magnesia 200 B. C. Humann found it in the temple of Artemis after 2,000 years and sent it to Hallbauer, who gave it the form in which it shall bear witness that your deeds shall outlive millennia."

At the time of the presentation to Bismarck Stahl und Eisen gave a photographic reproduction of the plate and an account of the discovery of the iron. The temple of Artemis, one of the most magnificent of ancient monuments, was rebuilt about 300 B. C., though by some the date is put at 200 B. C.

The metal is described as approximating steel in its composition, though closely akin to malleable iron. It was made at a low temperature, and great care was necessary in the forging. It was found rather difficult to roll the pieces that were preserved as relics, these having a diameter of about one-half inch.—Iron Trade Review.

Brain Work.

The Washington Star surprised two high school girls talking about their graduation essays.

"Have you written yours yet?" asked Mand.

"Yes," answered Ethel.

"Wasn't it a lot of work?"

"Just dreadful! First, I had to hunt up words that were big enough, and then I had to keep looking in the dictionary to see what they meant, and honestly I began to think I never should get it finished."

ISLANDS IN DISPUTE.

Columbian and Nicaraguan Troops May Collide.

THE UNITED STATES INTERESTED.

Some Years Ago England Claimed the Corn Islands, but This Country Is Reported to Have Advised Nicaragua to Take Them First, Which Was Done.

(Copyrighted.)

MANAGUA, Nicaragua, Jan. 2.—With little beating of drums or blowing of trumpets a warlike move upon the part of the republic of Colombia is now believed to have been checkmated by the republic of Nicaragua, although further news from the objective point, Corn Island, is anxiously expected here.

About a month ago the government of Nicaragua was informed, unofficially, that Colombia had planned to make a landing on Corn Island, a valuable strategic spot, situated about 30 miles off the Mosquito coast, belonging to Nicaragua, whose flag was to be hoisted from the ensign of Colombia substituted for it. It was alleged that Nicaragua was overtaking Corn islands and that the inhabitants, numbering a few hundred, had appealed to Colombia for redress, on the ground that territory, some five miles long, which formerly belonged to Colombia, was unlawfully held by Nicaragua.

It is further stated that the prefect of San Andres, Colombia, has assembled a military force and was only waiting for the arrival of a Colombian gunboat in order to embark the troops, proceed to Corn Island, seize it and fortify it against the possibility of recapture. That such a plan was discussed there is no reason to doubt; but President Zevala of Nicaragua took prompt steps to meet this move upon the part of the neighboring republic. Very quietly detachments of Nicaraguan troops were assembled here and at Granada, and when all was ready they were sent, in small parties, across Lake Nicaragua and down the San Juan river to Graytown and Bluefields.

By this time the soldiers of Nicaragua are believed to be in possession of big and little Corn Island, for there are two of them, and the work of erecting a strong fort should be progressing.

Troops took all their best guns available and a supply of ammunition and other supplies. Storehouses are also to be constructed at Corn Island.

Of course, if the Colombian expedition started earlier than was expected, and reached Corn Island before the Nicaraguan troops, fighting may have occurred before this, and if so, the matter may lead to a general upheaval in Central America, for Colombia was warned, diplomatically and through the press early last month, that her seizure of Corn Island might lead to a warlike combination of the republic of Salvador and Honduras, in support of Nicaragua against her. Colombia was also advised if she still maintained she had rights over Corn islands to submit them to the arbitration of a disinterested republic. To these threats and suggestions apparently no attention was paid, for it was announced that the Colombian gunboat was being fitted up for the transportation of Colombian troops to Corn Island. It is hoped here that the Nicaraguan force reached there in advance of the Colombian detachment.

Some years ago, at the time work was beginning on the Maritime canal of Nicaragua, it was reported that Great Britain was contemplating laying hands on Corn islands, which, situated at a convenient distance from the Atlantic entrance of the canal, would have been quickly converted into another of the chain of British forts off the American coast and would have enabled her to practically command the eastern entrance of the waterway which is in time to join the Atlantic to the Pacific. Thereupon Nicaragua, acting upon suggestions, possibly from the United States, took official possession of both big and little Corn Island, holding the Nicaraguan flag over them with much ceremony and giving diplomatic notice of the same.

The British claim to Corn Island is understood to be based on her former pretensions, since given up, to a protectorate over the Mosquito territory and because Colombia, which originally owned Corn Island, ceded the islands to King George, then the governing chieftain under British auspices of the Mosquito reservation. Colombia, however, insists that Corn Island was only ceded to King George on the condition that it was to be returned whenever required. Nicaragua, as present owner of what was the Mosquito, now part of the republic of Nicaragua, disputes this point, especially as the time for raising it officially has long since passed, and holds that Corn Island was part of the Mosquito territory and as such is now a portion of Nicaraguan territory.

It will thus be seen that the dispute is a pretty one, as it stands, and that much may depend upon which country's troops first land on Corn Island and place it in a state of defense. The Nicaraguan government has strong hopes that the blue and white flag of Nicaragua is now floating over Corn Island, otherwise this news would not have been allowed to leak out.

HOT SENATORIAL FIGHT.

The Affray Exciting Over Cameron's Successor at Harrisburg.

HARRISBURG, Jan. 2.—The senatorial contest between John Wanamaker and Boies Penrose, the Quay candidate, is getting very tropical, especially since the arrest of Van Valkenburg; the Wanamaker manager, on a charge of attempting to bribe Representative Weiss to vote for Wanamaker.

Senator Quay has made this statement: "I know of two cases where men were offered \$5,000 apiece to vote for Wanamaker, and the offer was not made by Van Valkenburg."

The senator says he is in possession of all the facts. The Wanamaker men laugh at the story and declare it a bluff.

Senator Penrose said he had heard of the case and was not at all surprised.

Frank Willing Leach, the Wanamaker leader, is in town. There is a story going that Leach is to be arrested. Detective Mcweeney is in the city and it is said that he is here for business. The Wanamaker men are prepared for Leach's arrest. Bondsman have been secured. Some of them say that if Leach is arrested that Senator Quay will also be taken in custody. The last rumor it is hard to find a father for.

The city is filled with detectives. The sleuths are scattered around everywhere. If you talk to a man in the hotel corridor, the shadow is around, trying to catch the sense of the conversation.

A good many of the politicians are having fun by talking for the benefit of the sleuths. This keeps them busy chasing fake clues.

A GIRL'S TERRIBLE DEATH.

Man and Woman Arrested Charged With the Crime in Kansas.

TOPEKA, Jan. 2.—Al Williams, aged 32, and Mrs. Jane Mayes, aged 21, living north of Topeka, have been arrested charged with the murder of Anna Belle Williams, the 12-year-old girl, whose outraged body was found Wednesday in a meadow near Endora.

The body bears evidence of a dreadful assault on its person. The finger marks on the neck and condition of the body show that the murderous fiend who committed the assault covered up his work in sealing her lips with death by strangulation.

Williams was the father of the girl and accuses the Mayes woman of the murder. The pair agreed to take the girl to Kansas City, in order to have her placed on a poor farm, the woman to accompany the girl.

She says that when they reached Endora she became sick and a strange man offered to take care of the girl. That is the last she saw of Belle. The pair are secure in jail and the officers say they expect to prove a deliberate scheme to make way with the girl.

AN ATTACK ON CECIL RHODES.

New Year's Callers on Kruger Call Him the Chief Conspirator.

PRETORIA, Transvaal, Jan. 2.—Upon the occasion of the New Year's well-wishers' calling at the presidency to offer President Kruger their congratulations, Judge Jorissen made a speech, in the course of which he said that the gratitude which his countrymen felt at the deliverance from the attack upon the independence of the country was mingled with fears for the future. He complained bitterly that the republic had been insulted by the ovations accorded in Cape Colony to Cecil Rhodes. "Who," said the speaker, "was undoubtedly the chief criminal in the assault upon our country."

President Kruger showed himself deeply moved at the address, but he did not reply.

Cecil Rhodes has been welcomed with unbounded enthusiasm at Cape Town, and a gigantic banquet in his honor has been fixed for Tuesday.

THE RUMORS ABOUT DEPEW.

Is He to Be Honored by McKinley and Ingalls Will Succeed Him?

CINCINNATI, Jan. 2.—When the attention of Mr. M. E. Ingalls of the Big Four railroad was called to a published rumor that he was to be promoted to succeed the Hon. Chauncey M. Depew of the New York Central road and that Depew was to receive a first-class diplomatic appointment from President McKinley he frankly and quickly replied: "There is not anything in it, so far as I am concerned, Cincinnati cannot get rid of me so easily as that," and the business president closed the incident with a cheery "goodby."

NEW YORK, Jan. 2.—Touching statements contained in a New York dispatch to a western paper that M. E. Ingalls of the Big Four will succeed New York Central President Chauncey M. Depew, it may be said that no action toward such a change has been taken on the railroad side. So far as is known in this town, no initiative has been taken by the president-elect toward the placement of public responsibilities upon Mr. Depew. The relations between the president of the New York Central and all its interests have never been more close or satisfactory than they are now.

DINGLEY IN THE CABINET.

He Is Reported to Have Accepted the Treasury Portfolio.

Mr. Johnson, after the conference, said that the man pre-eminently fitted for the place was Horace Davis of San Francisco, who had served two terms in congress and was ex-president of the California State university.

Mrs. Cleveland's gown was of moire cloth, made very plainly, its chief ornamentation being a high ruche of point lace at the neck and butterfly bows of lace on the shoulders and where the folds of the skirt were caught. Her sleeves were long and the gloves of white kid. Her hair was smooth and wavy and arranged in a simple fashion.

OLDEST RAILROAD DIRECTOR.

The Venerable Samuel M. Young Dies at Toledo.

TOLEDO, Jan. 2.—Samuel M. Young, the oldest railroad director in the world, has died here in his 91st year.

The deceased came here nearly three-quarters of a century ago from Lebanon, N. H., where he was born. The late Chief Justice Waite was a law student in Mr. Young's office, and received his first legal training under his guidance.

Mr. Young was also president of the Toledo National bank for a quarter of a century. He was one of the projectors of the Cleveland and Toledo railroad, now the Lake Shore. In late years he helped to build the Columbus, Hocking Valley and Toledo.

The deceased leaves a large fortune to his three children.

EAST LIVERPOOL, O., SATURDAY, JAN. 2

HAVE you broken that new resolution, or are you waiting until the beginning of the new week?

The Spanish editor who tells the truth concerning the war in Cuba is imprisoned. Yet Spain boasts of its civilization.

A RESOLVE to read the NEWS REVIEW every day of the coming year was among the very best resolutions made yesterday.

THERE are small hopes for Mr. Bryan. His lectures are not successful, and his silver talk bids fair to be equally discouraging.

The position of President Cleveland toward Cuba and the Cubans is not adding to the place he will occupy in history as a great man.

JUDGING from the details of the latest story of the McKinley-Forsaker war one is prone to believe the Canton correspondents are suffering from a dearth of news.

WITH an increased revenue of almost a million dollars Ohio can start the new year without much thought of a howling wolf when the snows of December come again.

If those Democrats who make so much of every bank failure, would remember that Mr. Cleveland is still president, they could see the nonsense in their argument.

The late Andrew Jackson will probably turn over in his grave when he learns that the Salem silver club is arranging to observe his anniversary with free coinage speeches.

The manufacturing potters have a great claim for consideration in the new tariff bill, a claim which will result in increased wages and additional happiness in thousands of homes.

If the new year proves no disappointment the next twelve months will be a time of improvement and prosperity for East Liverpool. Only give us the conditions and our people will do the rest.

THERE is no space for trusts in this country, and the new administration can do no better than to enact the laws necessary to kill those already in existence and prevent others from formation.

WITH new shapes, new decorations, and grades of ware surpassing anything ever before sent out from the city, East Liverpool should in the coming year forcibly inform the importers of its existence.

THE keenest powers of discernment are not necessary to find the difference between the tariff hearings of today and those of a few years ago. Now the friends of American industry hear the evidence; then the manufacturers talked to the champions of Europe.

PROSPECTS.

The prospects for the coming year are, to say the least, encouraging. The national government will in a few months be in the keeping of men whose declared principles provide for an era of enterprise and prosperity. There may be conditions to prevent a complete realization of the hopes so fondly held by the thousands who have suffered and starved during the years when Grover Cleveland and his party were in power, but the present points to a brighter time. The country is as a patient recovering from a long illness. It cannot regain its strength in a day, nor yet in a month. The medicine must do its work, and the cure must be effected. With increasing strength, supported by the enterprise of the people and the resources of the land, there is no reason to believe that the next new year will dawn upon anything but a happy nation. It only remains for all to join

heartily in supporting any reasonable measure tending to bring about this end.

THE WAIF'S OPINION.

Thought People Who Worked For Nothing Were Fools.

One were the modest blue of the Salvation Army, the other the ragged raiment of the street waif. Both were girls, and both were selling papers. They came together on a Market street corner. The new girl eyed The War Cry lassie for a minute or two, and then sidled slowly up to her.

"How's biz?" she asked.

"The girl in the blue uniform and poke bonnet looked at the little tot in surprise.

"Not very good," she answered after a moment.

"Folks ain't buyin de papers very swift, eh?"

"I'm not selling many War Crys, if that is what you mean."

"Does yer have ter stay out till yer sells 'em all?"

"No, I don't have to, but I generally do."

"Take yer a long time ter night, eh?"

"Yes, I will be out very late, I expect. I'm awfully tired too."

"That seemed to determine something the ragged one evidently had been turning over in her mind.

"I only got a couple more papers left myself," she said, "an if yer don't mind I'll help yer out."

The novelty of the proposition or a desire for assistance caused The War Cry lassie to accept the proposition, and half of the Salvation papers were turned over to the new girl. The latter started in to work vigorously, and pretty soon had the other girl's papers going like hot cakes. Ragged new girls don't often peddle War Crys, and the people she approached appreciated the fact enough to avail themselves of the opportunity.

In perhaps half an hour the ragged one returned to The War Cry girl minus papers, but with a little fist full of nickels.

"Say," she said, "it's dead easy! Wish I could sell 'em all de time. Is der much in it?"

"Oh, my, no!" The War Cry girl explained. "I don't get paid anything at all."

The "newsy's" eyes opened wide in surprise. Then she voiced her opinion:

"Den yer mus' be as easy as sellin de War Crys was, I'm going now. Goodby!"—Philadelphia Inquirer.

IRON BAR 2,000 YEARS OLD.

A Portion of It Is Owned by the Iron Chancellor.

S. T. Wellman, the metallurgist of Cleveland, has a portion of a round bar of iron—and a few like pieces are held in the United States—that antedates the Christian era by two or three centuries. The iron, which had been originally hammered into plates and was deeply rusted from age, was found a few years ago by Dr. Karl Humann in the ruins of the temple of Artemis Leucophrayne, at Magnesia, Asia Minor. Dr. Humann sent it to Hallbauer, in Germany, and the latter made from a portion of it a memorial tablet. This was presented to Bismarck in April, 1894. It bore this inscription in German: "For you, Prince Bismarck, the Iron Chancellor, Hermogenes forged this iron in the temple of Artemis 2,000 years and sent it to Hallbauer, who gave it the form in which it shall bear witness that your deeds shall outlive millennia."

At the time of the presentation to Bismarck Stahl und Eisen gave a photographic reproduction of the plate and an account of the discovery of the iron. The temple of Artemis, one of the most magnificent of ancient monuments, was rebuilt about 300 B. C., though by some the date is put at 200 B. C.

The metal is described as approximating steel in its composition, though closely akin to malleable iron. It was made at a low temperature, and great care was necessary in the forging. It was found rather difficult to roll the pieces that were preserved as relics, these having a diameter of about one-half inch.—Iron Trade Review.

Brain Work.

The Washington Star surprised two high school girls talking about their graduation essays.

"Have you written yours yet?" asked Maud.

"Yes," answered Ethel.

"Wasn't it a lot of work?"

"Just dreadful! First, I had to hunt up words that were big enough, and then I had to keep looking in the dictionary to see what they meant, and honestly I began to think I never should get it finished."

ISLANDS IN DISPUTE.

Colombian and Nicaraguan Troops May Collide.

THE UNITED STATES INTERESTED.

Some Years Ago England Claimed the Corn Islands, but This Country Is Reported to Have Advised Nicaragua to Take Them First, Which Was Done.

[Copyrighted.]

MANAGUA, Nicaragua, Jan. 2.—With little beating of drums or blowing of trumpets a warlike move upon the part of the republic of Colombia is now believed to have been checkmated by the republic of Nicaragua, although further news from the objective point, Corn Island, is anxiously expected here.

About a month ago the government of Nicaragua was informed, unofficially, that Colombia had planned to make a landing on Corn Island, a valuable strategic spot, situated about 30 miles off the Mosquito coast, belonging to Nicaragua, whose flag was to be hoisted down and the ensign of Colombia substituted for it. It was alleged that Nicaragua was overtaking Corn islands and that the inhabitants, numbering a few hundred, had appealed to Colombia for redress, on the ground that territory, some five miles long, which formerly belonged to Colombia, was unlawfully held by Nicaragua.

It is further stated that the prefect of San Andres, Colombia, has assembled a military force and was only waiting for the arrival of a Colombian gunboat in order to embark the troops, proceed to Corn Island, seize it and fortify it against the possibility of recapture. That such a plan was discussed there is no reason to doubt; but President Zelaya of Nicaragua took prompt steps to meet this move upon the part of the neighboring republic. Very quietly detachments of Nicaraguan troops were assembled here and at Granada, and when all was ready they were sent, in small parties, across Lake Nicaragua and down the San Juan river to Graytown and Bluefields.

By this time the soldiers of Nicaragua are believed to be in possession of big and little Corn Island, for there are two of them, and the work of erecting a strong fort should be progressing.

Troops took all their best guns available and a supply of ammunition and other supplies. Storehouses are also to be constructed at Corn Island.

Of course, if the Colombian expedition started earlier than was expected, and reached Corn Island before the Nicaraguan troops, fighting may have occurred before this, and if so, the matter may lead to a general upheaval in Central America, for Colombia was warned, diplomatically and through the press early last month, that her seizure of Corn Island might lead to a warlike combination of the republic of Salvador and Honduras, in support of Nicaragua against her. Colombia was also advised if she still maintained she had rights over Corn islands to submit them to the arbitration of a disinterested republic. To these threats and suggestions apparently no attention was paid, for it was announced that the Colombian gunboat was being fitted up for the transportation of Colombian troops to Corn Island. It is hoped here that the Nicaraguan force reached there in advance of the Colombian detachment.

Some years ago, at the time work was beginning on the Maritime canal of Nicaragua, it was reported that Great Britain was contemplating laying hands on Corn islands, which, situated at a convenient distance from the Atlantic entrance of the canal, would have been quickly converted into another of the chain of British forts off the American coast and would have enabled her to practically command the eastern entrance of the waterway which is in time to join the Atlantic to the Pacific. Thereupon Nicaragua, acting upon suggestions, possibly from the United States, took official possession of both big and little Corn Island, hoisting the Nicaraguan flag over them with much ceremony and giving diplomatic notice of the same.

The British claim to Corn Island is understood to be based on her former pretensions, since given up, to a protectorate over the Mosquito territory and because Colombia, which originally owned Corn Island, ceded the islands to King George, then the governing chief under British auspices of the Mosquito reservation. Colombia, however, insists that Corn Island was only ceded to King George on the condition that it was to be returned whenever required. Nicaragua, as present owner of what was the Mosquito, now part of the republic of Nicaragua, disputes this point, especially as the time for raising it officially has long since passed, and holds that Corn Island was part of the Mosquito territory and as such is now a portion of Nicaragua territory.

It will thus be seen that the dispute is a pretty one, as stands, and that much may depend upon which country's troops first land on Corn Island and place it in a state of defense. The Nicaraguan government has strong hopes that the blue and white flag of Nicaragua is now floating over Corn Island, otherwise this news would not have been allowed to leak out.

HOT SENATORIAL FIGHT.

The Affray Exciting Over Cameron's Successor at Harrisburg.

HARRISBURG, Jan. 2.—The senatorial contest between John Wanamaker and Boies Penrose, the Quay candidate, is getting very tropical, especially since the arrest of Van Valkenburg; the Wanamaker manager, on a charge of attempting to bribe Representative Weiss to vote for Wanamaker.

Senator Quay has made this statement:

"I know of two cases where men were offered \$5,000 apiece to vote for Wanamaker, and the offer was not made by Van Valkenburg."

The senator says he is in possession of all the facts. The Wanamaker men laugh at the story and declare it a bluff.

Senator Penrose said he had heard of the case and was not at all surprised.

Frank Willing Leach, the Wanamaker leader, is in town. There is a story going that Leach is to be arrested. Detective McWeeney is in the city and it is said that he is here for business. The Wanamaker men are prepared for Leach's arrest. Bondsmen have been secured. Some of them say that if Leach is arrested that Senator Quay will also be taken in custody. The last rumor it is hard to find a father for.

The city is filled with detectives. The sleuths are scattered around everywhere. If you talk to a man in the hotel corridor, the shadow is around, trying to catch the substance of the conversation. A good many of the politicians are having fun by talking for the benefit of the sleuths. This keeps them busy chasing fake clues.

A GIRL'S TERRIBLE DEATH.

Man and Woman Arrested Charged With the Crime in Kansas.

TOPEKA, Jan. 2.—Al Williams, aged 32, and Mrs. Jane Mayes, aged 21, living north of Topeka, have been arrested charged with the murder of Anna Belle Williams, the 12-year-old girl, whose outraged body was found Wednesday in a meadow near Endora.

The body bears evidence of a dreadful assault on its person. The finger marks on the neck and condition of the body show that the murderous fiend who committed the assault covered up his work in sealing her lips with death by strangulation.

Williams was the father of the girl and accuses the Mayes woman of the murder. The pair agreed to take the girl to Kansas City, in order to have her placed on a poor farm, the woman to accompany the girl.

She says that when they reached Endora she became sick and a strange man offered to take care of the girl. That is the last she saw of Belle. The pair are secure in jail and the officers say they expect to prove a deliberate scheme to make way with the girl.

New Year's Callers on Kruger Call Him the Chief Conspirator.

PRETORIA, Transvaal, Jan. 2.—Upon the occasion of the New Year's well-wishers' calling at the presidency to offer President Kruger their congratulations, Judge Jorissen made a speech, in the course of which he said that the gratitude which his countrymen felt at the deliverance from the attack upon the independence of the country was mingled with fears for the future. He complained bitterly that the republic had been insulted by the omissions accorded in Cape Colony to Cecil Rhodes. "Who," said the speaker, "was undoubtedly the chief criminal in the assault upon our country."

President Kruger showed himself deeply moved at the address, but he did not reply.

Cecil Rhodes has been welcomed with unbounded enthusiasm at Cape Town, and a gigantic banquet in his honor has been fixed for Tuesday.

Mr. Money expressed his regret at not meeting the Marquis Ahumada, and at being unable to await the return of General Weyler before he left the island. THE RUMORS ABOUT DEPEW.

Is He to Be Honored by McKinley and Ingalls Will Succeed Him?

CINCINNATI, Jan. 2.—When the attention of Mr. M. E. Ingalls of the Big Four railroad was called to a published rumor that he was to be promoted to succeed the Hon. Chauncey M. Depew of the New York Central road and that Depew was to receive a first-class diplomatic appointment from President McKinley he frankly and quickly replied: "There is not anything in it, so far as I am concerned, Cincinnati cannot get rid of me so easily as that," and the business president closed the incident with a cheery "goodby."

New York, Jan. 2.—Touching statements contained in a New York dispatch to a western paper that M. E. Ingalls of the Big Four will succeed New York Central President Chauncey M. Depew, it may be said that no action toward such a change has been taken on the railroad side. So far as is known in this town, no initiative has been taken by the president-elect toward the placement of public responsibilities upon Mr. Depew. The relations between the president of the New York Central and all its interests have never been more close or satisfactory than they are now.

DINGLEY IN THE CABINET.

He Is Reported to Have Accepted the Treasury Portfolio.

WASHINGTON, Jan. 2.—Nelson Dingley, Jr., will be the next secretary of the treasury. He has been tendered this high position under the McKinley administration and has accepted it.

A meeting of the California congressional delegation, called for New Year's day, to agree on a candidate for the cabinet to recommend to President-elect McKinley, adjourned until Monday, as Senator Perkins and Representatives Johnson and Barham were the only persons present, the others being out of the city. Mr. Johnson, after the conference, said that the man pre-eminently fitted for the place was Horace Davis of San Francisco, who had served two terms in congress and was ex-president of the California State university.

WHITE HOUSE RECEPTION.

The Annual Brilliant Affair Given by the President and Wife.

WASHINGTON, Jan. 2.—The New Year's reception at the White House occurred with the same ceremony as of recent years.

Her sleeves were long and the gloves of white kid. Her hair was smooth and wavy arranged in a simple fashion.

The reception began with the entry of the members of the diplomatic corps, headed by Sir Julian Pauncefote, the English ambassador, and Lady Pauncefote. All were in full court costume.

ATTACKS ON WEYLER.

They May Cause a Cabinet
Crisis in Spain.

ATTEMPTS TO SUPPRESS FAILED.

Part of the Text of Newspaper Articles
Gotten Out of Madrid—Order For Wey-
ler's Recall Suspended by Premier
Canovas—Public Indignation Prevails.

MADRID, Jan. 2.—The Dia, referring
to the attacks of The Herald and Im-
parcial on Captain General Weyler,
says it is possible that they may result
in a cabinet crisis and that many peo-
ple believe there will be a change of
policy.

A meeting of Spanish generals was
held last evening to consider these
newspaper articles, the full text of
which was ordered not to be sent
abroad, for fear of causing dismay
among the troops in Cuba and encour-
aging the friends of the insurgents in
the United States.

Nevertheless, in spite of the action of
the authorities some of the text of the
attacks was gotten out of Madrid.

The editor of The Imparcial, who
signs his denunciation of the powers
that be, writes in part:

"It is painful that events should oblige
a patriotic journalist to say that among
the general and field officers of the
Spanish army in Cuba there are some
unworthy of being general officers for
Spaniards. In the lovely isle where
we are fighting for a glorious past, stak-
ing Spain's future, are men who make
abundant, scandalous wealth out of the
nation's honor by the death of our
soldiers."

The articles charges Weyler and the
heads of the commissary and hospital
departments with incapacity in not
stopping the abuses and frauds which
had been denounced by the Madrid and
Havana papers, by letters received from
the colony and by invalid soldiers, ar-
riving by the hundreds every month
with a dismal tale of sufferings, priva-
tions and lack of food, both in the field
and in the hospitals.

The Imparcial calls on the govern-
ment to act swiftly, sternly and inflex-
ibly, sparing no offenders, even if it
has to shoot men of rank, after a
thorough, inexorable investigation on
the spot by honest military judges,
who ought to be sent out with a new
governor in the person of the present
war minister, General Azcarraga, if
the Spanish nation and government are
to clear themselves of all responsibility
in directions whose failure to do so has
simply played into the hands of the in-
surgents and of their sympathizers in
the United States.

It is persistently asserted that a de-
cision has been reached to relieve Cap-
tain General Weyler of his functions,
but that the premier, Senor Canovas del
Castillo, has suspended the order.

All the ministers met at the premier's
residence in order to discuss the matter.
A feeling of general public indignation
prevails. It is asserted that the
soldiers are suffering from hunger, ex-
posure and lack of medical care, while
nobody seems to know what becomes of
the money sent from Spain.

WEYLER MIRRORS HIMSELF

He Says General Weyler Is a Great Man
and That He Has Pacified Pinar Del
Rio—Invites Rebels to Surrender—Cul-
tivated Zones.

HAVANA, Jan. 2.—The war corre-
spondent of La Lucha of this city, Senor
Canarte, has telegraphed to his paper
the substance of an interview which he
has had with Captain General Weyler,
whose column he joined at San Cristobal.
The captain general assured the
correspondent that there was only about
500 insurgents in the province of Pinar
del Rio, adding: "I am able to say
that the province is pacified. Sick, wounded
and hunger will terminate the
revolution. I will treat the leaders
with consideration if they surrender all
or nearly all of their followers."

"Nobody can consider himself the
owner of the cattle in the mountains
and woods which were born last year
and I allow the soldiers and the poor to
gather them together and get what
benefit they can from them. I have
also provided for the establishment of
cultivated zones in order to avoid fam-
ine, and I congratulate myself upon
the suppression of the revolution in
Pinar del Rio. The rebels are lacking
in valor and other elements to make the
uprising a success."

"With the assistance of the commer-
cial chambers, I hope to establish cul-
tivated zones in the province of Havana,
between the two railroad lines, but I
cannot allow people to build houses out-
side of the towns, as they only serve as
a refuge for bandits."

"Rius Rivero (the name hitherto
spelled generally Rius Rivis) is dis-
regarded by the Cuban partisans and is
lacking in the qualities more to make
an insurgent commander, and neither
Quintin Banderos nor Calisto Garcia
has as much prestige as Antonio
Maceo."

At San Cristobal, General Weyler
joined forces with those of General
Obregon, from Candelaria.

HELPED THE COMMODORE.

Revenue Cutter Pulled Her Off a Bar.
Three Friends Released.

JACKSONVILLE, Fla., Jan. 2.—The
steamer Commodore, which cleared
from this port Thursday night bound
for Cuba with arms and ammunition,
grounded in the St. Johns river at Com-
modore Point, a few miles below this
city and remained there all night. The
revenue cutter Boutwell started down
the river Friday and threw the Com-
modore a line and pulled it off, afterward
towing the boat down the river until
steam could be gotten up. The Com-
modore crossed the bar and headed for
Cuba.

The gunner from the Boutwell has
been withdrawn from the Three Friends
by Captain Kilgore, acting under in-
structions from Washington. District
Attorney Clark has received no in-
structions to libel the steamer and it is now
free from the custody of the govern-
ment.

FOUND DEAD IN BED.

Three People Asphyxiated at
Struthers.

FOUR MORE RESCUED IN TIME.

Furnacemen, Returning From Work In
the Morning, Found the Dead Family
and Almost Smothered Boarders—Re-
suscitated the Latter by Hard Work.

YOUNGSTOWN, O., Jan. 2.—Mr. and
Mrs. Joseph Betz and child were found
dead in bed at Struthers, O., New
Year's morning and four boarders in
the family were in a comatose con-
dition when rescued, having been asphyx-
iated by gas. Betz is a laborer at
Struthers furnace and seven of the fur-
nace employees boarded with him.
Three of them were at work at night
and when they came in at 6 in the
morning found the family dead.

They carried the boarders and after
walking around for a time they recov-
ered. The house is owned by the fur-
nace company, but the latter believes
the family was asphyxiated by gas
from a cookstove and not from the fur-
nace.

SOME RAILWAY CHANGES.

Officials of the Lake Shore Company
Shifted About.

CLEVELAND, Jan. 2.—The following
changes in traffic officials of the Lake
Shore Railway have been announced:
The office of assistant general freight
agent here is discontinued, because of
the resignation of J. G. James. James
L. Clark is appointed general western
freight agent, with headquarters at
Chicago. M. S. Chase, general
freight agent at Chicago, will have
charge of local traffic between Chicago
and Dune Park; James L. Clark, gen-
eral western agent at Chicago, will
have charge of all through traffic at
Chicago, with connections, and of all
contracting and traveling agents in and
west of Chicago. H. J. Lawrence, gen-
eral agent, Pittsburg, will have juris-
diction over freight traffic from the
Pittsburg and Lake Erie railroad south
of New Castle junction.

NEW TRAFFIC ARRANGEMENT.

The W. & L. E. Will Now Enter Cleve-
land Over B. & O. Tracks.

CLEVELAND, Jan. 2.—A traffic ar-
rangement has been entered into be-
tween the Wheeling and Lake Erie
railway and the Baltimore and Ohio,
whereby the former company is to en-
ter Cleveland over the latter line. The
Wheeling and Lake Erie company has
been desirous for a long time of hav-
ing an entrance to this city, and negotia-
tions king to that end between the
two companies mentioned have been in
progress for the past two years.

The new arrangement, which goes
into effect immediately, will give the
Wheeling and Lake Erie the shortest

route from Wheeling to the lakes, a
distance being 140 miles.

Robbed the Marshal's House.
WAVERLY, O., Jan. 2.—The Ohio
Southern depot has been broken into
and \$25 in cash stolen. Druggist A. H.
Dean's residence was next entered and
an \$80 gold watch and several suits of
clothes taken. A dozen other residences
were pilfered of eatables, clothes, silver-
ware and money. Marshal Bateman
was called out of bed to capture the
thieves, and while he was out search-
ing the burglars broke into the mar-
shal's own home, stole his watch, his
daughter's pocketbook and other arti-
cles.

Hamilton's New Enterprise.

HAMILTON, Jan. 2.—The new shops
now in course of erection by the Hor-
ring-Hall-Martin company in East
Hamilton are being rapidly pushed
toward completion. It is thought by
the company that the new building
will be ready for occupancy not later
than the last of May. The new enter-
prise will employ not less than 300
men and will be a big help to Hamil-
ton.

An Epidemic of Grip.

SPRINGFIELD, O., Jan. 2.—It is es-
timated that there are at present about
2,000 people in this city who are af-
flicted with the grip. Such an epidemic
as has swept the city during the past
few days has never been known in years,
and all the doctors in town have been
kept busy attending patients afflicted
with it. Almost every doctor in the
city has from 20 to 30 cases.

Expect a New Trial.

DAYTON, O., Jan. 2.—Albert J. Frantz,
the condemned murderer of Bessie Lit-
tle has fully regained the composure
which stood him so well throughout the
two weeks of his trial which ended in
his conviction. He now rests as usual,
eats heartily, converses freely with his
relatives, and with the assurance of
his attorneys now believes that he will
be granted a new trial.

May Result in Murder.

EATON, O., Jan. 2.—Two farmers by
the name of Jesse Kelley and Isaac
Hancock, living near Muttonville, had

Hancock on the head with a stick of
wood, which rendered him unconscious.
He has remained unconscious, with no
hope of recovery. Kelley was arrested.

Granted a New Trial.

MARIETTA, O., Jan. 2.—Frank Devol,

FOUND DEAD IN BED.

Three People Asphyxiated at Struthers.

FOUR MORE RESCUED IN TIME.

Furnacemen, Returning From Work In the Morning, Found the Dead Family and Almost Smothered Boarders—Resuscitated the Latter by Hard Work.

YOUNGSTOWN, O., Jan. 2.—Mr. and Mrs. Joseph Betz and child were found dead in bed at Struthers, O., New Year's morning and four boarders in the family were in a comatose condition when rescued, having been asphyxiated by gas. Betz is a laborer at Struthers furnace and seven of the furnace employees boarded with him. Three of them were at work at night and when they came in at 6 in the morning found the family dead. They carried the family dead and after walking around for a time they recovered. The house is owned by the furnace company, but the latter believes the family was asphyxiated by gas from a cookstove and not from the furnace.

The new arrangement, which goes into effect immediately, will give the Wheeling and Lake Erie the shortest

BANQUETED THE BOYS

Contractor Shrader Opened the Bridge in Style.

BIG BUSINESS THE FIRST DAY

Over 2,500 People Crossed the New Structure—Little Work for the Ferry—It Will Require a Month to Complete the Bridge, but It Is Being Used.

The Chester bridge was opened to the public yesterday. Contractor Shrader observing the occasion by remembering the men who have spent many months in building the structure.

The tables were spread in the dining room at the Thompson House, and 30 bridge builders sat down to dinner. Mr. Shrader was unable to be present, business taking him to McKeesport, but E. D. Marshall sat at the head of the first table with J. E. McDonald to his right, and they did the honors of the occasion. The bridge was formally christened, and the employees made to enjoy themselves.

The bridge was opened to travel yesterday morning, and when the last person had crossed for the night the books showed it had been used by more than 2,500 persons. Mr. McDonald was unable to give the exact number. Many who crossed were East Liverpool people enjoying the walk, but a goodly number were from the country districts of West Virginia and Pennsylvania. The effect upon the ferry boat was easily seen, as the craft did not make its usual number of trips. It will be a month before the bridge is completed.

READ THIS CAREFULLY.

It Shows That Bookkeepers Are In Demand.

"Wanted—Bookkeeper, at once. An experienced bookkeeper. Salary \$800. Address, Real Estate, Dispatch."

The above is from a recent Pittsburg Dispatch. The papers are full of such ads as the above; business is resuming, and the prospects are bright for 1897. In a few months anyone can prepare themselves at the Ohio Valley Business college to fill any position. Their up to date methods are very popular and the tuition very reasonable. Day and evening sessions during the entire year. A great many new students will enter next Monday.

S. F. Fritz, of 677 Sedgwick street, Chicago, says: "I had a severe cough which settled on my lungs. I tried a number of advertised remedies and also placed myself under treatment of several physicians, with no benefit. I was recommended to try Foley's Honey and Tar. With little expectation of getting relief, I purchased a bottle. I had taken but few doses when I felt greatly improved; I was enabled to sleep, spitting of blood ceased, and by the time I had taken the second bottle I was entirely well. It saved my life."

Rhea Fiber.

The claim is put forth by the London Times that the Gomess process for treating the rhea fiber is completely successful in rendering that plant a most valuable source of textile material. This process absorbs zincate of soda for the elimination of the resins and effects it without the slightest injury to the fiber. After the "ribbons" or strips of bark have been freed from dirt they are placed in weak acid baths for a night. Next morning they are passed through a mild alkaline bath and then boiled in weak solutions of caustic soda to which zinc has been added. When washed and dried by the usual mechanical means, the fibers emerge as a long silky floss, entirely free from the cuticle and resinous gums in which they were imbedded, being also clean, white and ready for the comb of the spinner. They likewise take the most attractive dyes and can be worked into every variety of fabric, from the finest quality of velvets to cheap drills and delicate laces. The combined lightness and toughness of the fiber render it peculiarly suitable for tents and ship canvas, and three-fifths more cloth of equal strength can be produced from rhea than from the same weight of linen—that is, 1,000 yards of rhea canvas weighs only as much as 600 yards of linen, its durability and resisting power to strain being also much greater.

Foley's Honey and Tar Cough syrup wherever introduced is considered the most pleasant and effective remedy for all throat and lung complaints. It is the only prominent cough medicine that contains no opiates and that can safely be given to children.

IN CASE OF SYNCOPE.

MOMENTARY HEART PARALYSIS THAT REQUIRES STIMULANTS.

Different Methods of Treatment and How They Should Be Applied—Whatever Is Done Must Be Done Without Delay, Which Is Dangerous.

It is an everyday occurrence to see persons in a weak condition, just up from a sickbed or under the influence of some great emotion, grow suddenly pale, lose consciousness and faint. A more or less complete suspension of breathing takes place, corresponding to a check, or, at any rate, to a considerable decrease in the circulation of the blood. This condition is called syncope, and is in reality a momentary paralysis of the heart. If immediate help is not afforded, syncope may in some cases be the cause of death.

Nothing is better known than the different means to be used in case of syncope; the most important points are to facilitate the flow of the blood, to keep up what remains of the weakened energy of the heart contraction and to remove every obstacle to restoration of the circulation of the blood.

From these points of view to place the patient in a horizontal position is a practice that is as efficacious as it is habitual. In this way not only is it easier for the heart to keep the mass of blood in motion, but the head, which is best to put in a lower position than the body, receives a larger supply of blood than before, so that the lack of blood in the brain, the initial cause of the syncope, is very largely compensated.

To carry still further this relative congestion of the brain, it has even been suggested to stand such patients literally on their head, and by following this practice, as nearly as could be done, Nelaton and Campbell reported cases in which patients were brought back to consciousness who would otherwise have infallibly succumbed.

It is with a similar purpose that we should make all haste to remove the patient's corset, to loosen collar and cravat—in a word, to loosen all the clothing—and to carry the patient into the open air. In this way many obstacles to the circulation of the blood are removed, but the special advantage in the practice is that the expansion of the lungs becomes less impeded and easier.

If, however, in spite of these measures of relief, the syncope continues, we must have recourse to remedies of another kind, numerous and varied in nature, but all designed to bring back and stimulate the contraction of the heart muscle.

The return of general consciousness should be stimulated by sudden and violent shaking of the patient, by dashing cold water on the face and by rubbing the skin with alcohol or vinegar. These are best applied to the temples, lips or palms of the hands. It is also well to rub the hands and feet, limbs and even the entire surface of the body in an energetic manner with a hair glove or any other rough tissue with which any stimulating lotion that may be at hand can be applied, such as brandy or eau de cologne.

The special senses should also be stimulated. The patient should be made to breathe any strongly smelling stuff that may be at hand—sal volatile, vinegar, acetic acid or ammonia. By these different means, which are more or less energetic and almost always efficacious, the stimulants of the heart contractions bring back its beats, while the resumption of circulation carries once more to the brain the blood necessary for its working.

If these different means are still insufficient, artificial respiration should be resorted to without delay. The patient should be placed on the back, the head as low as possible, turned to one side and the mouth wide open. The operator stands at the side of the head, seizes the two elbows firmly and draws them as far upward and away from the chest as possible, thereby dilating the chest and allowing the air to enter the lungs.

An assistant, placed by the patient's legs, rests both hands on the sides of the base of the chest and brings pressure to bear on it at the very moment when the patient's elbows are being brought back to the sides again after having been raised to a maximum. In a word, the assistant acts in such a way as to help to drive out the air that has been sent into the lungs by the extension of the arms. Two skillful operators can in this way, by working well together, carry on an almost normal degree of breathing.

It is advisable not to go too quickly, as the average human being does not breathe more than about 16 times a minute.

If in one or two minutes the syncope has not come to an end, there is no use relying any longer on this measure, and it will be best to resort to rhythmic traction of the tongue according to the method of M. Laborde of Paris. This method, which is constantly giving the most unhopful for results in cases of asphyxia, consists in opening the patient's mouth, in seizing the tongue with the fingers and a piece of linen and in drawing it forward with strong rhythmic tractions, slowly and methodically, 15 to 18 times a minute.

The return to consciousness is usually announced by the utterance of a loud, deep and long expiration.

When the patient has recovered from the fainting fit, the syncope is naturally cured, but we have still to try to prevent a recurrence of this disagreeable accident. This can be done naturally by ascertaining its cause.—Paris Herald.

Improving.

"I don't mind the city so much now. I'm getting accustomed to its ways."

"Are you? How?"

"Well, I used to turn two somersaults every time I got off a street car, and now I turn only one."—Chicago Record

Women go on, heedlessly ignoring the dangers that lie right in the path of their thoughtlessness. They neglect little warnings until they get used to them. The warnings become louder and louder, and still they do not heed them. Their sickness increases like a snowball rolling down hill. The sickness comes on gradually, and they get used to it gradually, but it ruins their lives just the same. One woman in a hundred, perhaps, is perfectly healthy. Sometimes her weakness is inherited, sometimes acquired by carelessness. In every case, care and Dr. Pierce's Favorite Prescription will give her new life and strength and vitality. It will fill out the hollows in her cheeks, bring color to her lips, brighten her eyes, and make her really and truly a woman. The "Favorite Prescription" is of inestimable value at three stages in the lives of every woman—when the girl becomes a woman, when the woman becomes a mother, and when the mother becomes incapable of maternity. At these times it gives safety and strength. It is the only medicine now before the public for woman's peculiar ailments, adapted to her delicate organization by a regularly graduated physician—an experienced and skilled specialist in these maladies. It cannot do harm in any condition of the system. Its sales exceed the combined sales of all other medicines for women.

Every woman should have and read Dr. Pierce's Common Sense Medical Adviser, a great book of a thousand pages, profusely illustrated which will be sent free on receipt of 21 one-cent stamps, to pay for mailing only. Address, World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y.

HARD TO COMBAT

The Evidence of Our Senses—What East Liverpool People Say Is Pretty Good Proof for East Liverpool People.

When we see it ourselves. When our own ears hear it. When our neighbors tell it. Our friends endorse it. No better evidence can be had. It's not what people say in Maine. Or distant mutterings from California. No deceiving echoes here. East Liverpool talk about East Liverpool people.

Public opinion pushed for the public good. There is no proof like home proof. Home testimony at the back of every body.

Doan's Kidney Pills. Can you believe your neighbors? Read this statement made by a citizen:

Mr. R. H. Hawkins, an employee of Sebring's Pottery, who lives at No. 234 Second St., says: "I found Doan's Kidney Pills very satisfactory. I had been taking medicine for my kidneys right along, and if I had found a cure I would have had no occasion to use Doan's Kidney Pills. I was troubled two years or more with distressing backache across the loins, a steady aching pain with quick twinges now and then when stooping or lifting that felt as if a sharp instrument had probed me back, while the secretions of the kidneys were highly colored, feverish or slightly scalding. Work seemed to be a drag; I had no energy, and I am more than thankful that I was induced to go to the W. & W. Pharmacy and get a box of Doan's Kidney Pills. Since taking them there has been no sign of my old complaint coming back. I feel better in every way, can now work with a will, and endorse the medicine that brought this change about."

Doan's Kidney Pills are sold by all dealers. Price 50 cents per box, or six boxes for \$2.50. Sent by mail on receipt of price. Foster-McMillan Co., Buffalo, N. Y., sole agents for the United States.

The Chinese Are Self-Helpful.

The percentage of foreigners in our hospitals, asylums and penal institutions is overwhelming. But the Chinese make little call upon us for philanthropy, and that only for medical help. Little by little these people are coming to see the superiority of our medical treatment, and in cases of severe sickness they will sometimes turn to our hospitals for help. But they ask no other aid from us. If a Chinaman needs any monetary assistance, his countrymen help him without burdening our public philanthropies. It is not uncommon for the men of one clan or friends from different clans to band together to establish a loan fund, every man giving so much toward it week by week. This is loaned to needy men without security or interest, and when repaid it is loaned again, and thus many a mal is carried through a sickness or set up in business, and outsiders are none the wiser.—"The Chinese of New York," by Helen F. Clark, in Century.

Bone Castings.

Mistake is made by many "home dressmakers" in putting on bone castings drawn very tightly. They should be left loose—even wrinkled—as the bones when inserted will bring them to their proper arching shape on the inside. Whalebone soaked in warm water an hour before using under them more pliable. Belt ribbon should never be sewed to the underarm seams. Bent hooks should be chosen for fastenings, setting on first a hook and then an eye, and so on alternately down the bodice, and it will never unhook of itself. Waist linings are cut much longer than the outside to allow for the stretching of the outside material. The extra length is taken up gradually in the seams.

Perfectly Natural.

Willie—Dobbs, in all my life I never saw a more natural expression of contentment than you have got in the face of this woman. Who was your model? Dobbs—I used two models at the same time. One was an old maid, and the other had had the liveries. The painting, consequently, is a composite.

BANQUETED THE BOYS

Contractor Shrader Opened the Bridge in Style.

BIG BUSINESS THE FIRST DAY

Over 2,500 People Crossed the New Structure—Little Work for the Ferry—It Will Require a Month to Complete the Bridge, but It Is Being Used.

The Chester bridge was opened to the public yesterday. Contractor Shrader observing the occasion by remembering the men who have spent many months in building the structure.

The tables were spread in the dining room at the Thompson House, and 30 bridge builders sat down to dinner. Mr. Shrader was unable to be present, business taking him to McKeesport, but E. D. Marshall sat at the head of the first table with J. E. McDonald to his right, and they did the honors of the occasion. The bridge was formally christened, and the employees made to enjoy themselves.

The bridge was opened to travel yesterday morning, and when the last person had crossed for the night the books showed it had been used by more than 2,500 persons. Mr. McDonald was unable to give the exact number. Many who crossed were East Liverpool people enjoying the walk, but a goodly number were from the country districts of West Virginia and Pennsylvania. The effect upon the ferry boat was easily seen, as the craft did not make its usual number of trips. It will be a month before the bridge is completed.

S. F. Fritz, of 677 Sedgewick street, Chicago, says: "I had a severe cough which settled on my lungs. I tried a number of advertised remedies and also placed myself under treatment of several physicians, with no benefit. I was recommended to try Foley's Honey and Tar. With little expectation of getting relief, I purchased a bottle. I had taken but few doses when I felt greatly improved; I was enabled to sleep, spitting of blood ceased, and by the time I had taken the second bottle I was entirely well. It saved my life."

Rhea Fiber.

The claim is put forth by the London Times that the Gonnex process for treating the rhea fiber is completely successful in rendering that plant a most valuable source of textile material. This process adopts zincate of soda for the elimination of the resins and effects it without the slightest injury to the fiber. After the "ribbons" or strips of bark have been freed from dirt they are placed in weak acid baths for a night. Next morning they are passed through a mild alkaline bath and then boiled in weak solutions of caustic soda to which zinc has been added. When washed and dried by the usual mechanical means, the fibers emerge as a long silky floss, entirely free from the cuticle and resinous gums in which they were imbedded, being also clean, white and ready for the comb of the spinner. They likewise take the most attractive dyes and can be worked into every variety of fabric, from the finest quality of velvets to cheap drills and delicate laces. The combined lightness and toughness of the fiber render it peculiarly suitable for tents and ship canvas, and three-fifths more cloth of equal strength can be produced from rhea than from the same weight of linen—that is, 1,000 yards of rhea canvas weighs only as much as 600 yards of linen, its durability and resisting power to strain being also much greater.

Foley's Honey and Tar Cough syrup wherever introduced is considered the most pleasant and effective remedy for all throat and lung complaints. It is the only prominent cough medicine that contains no opiates and that can safely be given to children.

IN CASE OF SYNCOPE.

MOMENTARY HEART PARALYSIS THAT REQUIRES STIMULANTS.

Different Methods of Treatment and How They Should Be Applied—Whatever Is Done Must Be Done Without Delay, Which Is Dangerous.

It is an everyday occurrence to see persons in a weak condition, just up from a sickbed or under the influence of some great emotion, grow suddenly pale, lose consciousness and faint. A more or less complete suspension of breathing takes place, corresponding to a check, or, at any rate, to a considerable decrease in the circulation of the blood. This condition is called syncope, and is in reality a momentary paralysis of the heart. If immediate help is not afforded, syncope may in some cases be the cause of death.

Nothing is better known than the different means to be used in case of syncope; the most important points are to facilitate the flow of the blood, to keep up what remains of the weakened energy of the heart contraction and to remove every obstacle to restoration of the circulation of the blood.

From these points of view to place the patient in a horizontal position is a practice that is as efficacious as it is habitual. In this way not only is it easier for the heart to keep the mass of blood in motion, but the head, which is best to put in a lower position than the body, receives a larger supply of blood than before, so that the lack of blood in the brain, the initial cause of the syncope, is very largely compensated.

To carry still further this relative congestion of the brain, it has even been suggested to stand such patients literally on their head, and by following this practice, as nearly as could be done, Nolaton and Campbell reported cases in which patients were brought back to consciousness who would otherwise have infallibly succumbed.

It is with a similar purpose that we should make all haste to remove the patient's corset, to loosen collar and cravat—in a word, to loosen all the clothing—and to carry the patient into the open air. In this way many obstacles to the circulation of the blood are removed, but the special advantage in the practice is that the expansion of the lungs becomes less impeded and easier.

If, however, in spite of these measures of relief, the syncope continues, we must have recourse to remedies of another kind, numerous and varied in nature, but all designed to bring back and stimulate the contraction of the heart muscle.

The return of general consciousness should be stimulated by sudden and violent shaking of the patient, by dashing cold water on the face and by rubbing the skin with alcohol or vinegar. These are best applied to the temples, lips or palms of the hands. It is also well to rub the hands and feet, limbs and even the entire surface of the body in an energetic manner with a hair glove or any other rough tissue with which any stimulating lotion that may be at hand can be applied, such as brandy or eau de cologne.

The special senses should also be stimulated. The patient should be made to breathe any strongly smelling stuff that may be at hand—sal volatile, vinegar, acetic acid or ammonia. By these different means, which are more or less energetic and almost always efficacious, the stimulants of the heart contractions bring back its beats, while the resumption of circulation carries once more to the brain the blood necessary for its working.

If these different means are still insufficient, artificial respiration should be resorted to without delay. The patient should be placed on the back, the head as low as possible, turned to one side and the mouth wide open. The operator stands at the side of the head, seizes the two elbows firmly and draws them as far upward and away from the body as possible, thereby dilating the chest and allowing the air to enter the lungs.

An assistant, placed by the patient's legs, rests both hands on the sides of the base of the chest and brings pressure to bear on it at the very moment when the patient's elbows are being brought back to the sides again after having been raised to a maximum. In a word, the assistant acts in such a way as to help to drive out the air that has been sent into the lungs by the extension of the arms. Two skillful operators can in this way, by working well together, carry on an almost normal degree of breathing.

It is advisable not to go too quickly, as the average human being does not breathe more than about 16 times a minute.

If in one or two minutes the syncope has not come to an end, there is no use relying any longer on this measure, and it will be best to resort to rhythmic contractions of the tongue according to the method of M. Laborde of Paris.

This method, which is constantly giving the most unhelped for results in cases of apnoea, consists in opening the patient's mouth, in seizing the tongue with the fingers and a piece of linen and in drawing it forward with strong rhythmic contractions, slowly and methodically, 15 to 18 times a minute.

The return to consciousness is usually announced by the utterance of a loud, deep and long expiration.

When the patient has recovered from the fainting fit, the syncope is naturally cured, but we have still to try to prevent a recurrence of this disagreeable accident. This can be done naturally by ascertaining its cause.—Paris Herald.

Improving.

"I don't mind the city so much now. I'm getting accustomed to its ways."

"Are you? How?"

"Well, I used to turn two somersaults every time I got off a street car, and now I turn only one."—Chicago Record

Women go on, heedlessly ignoring the dangers that lie right in the path of their thoughtlessness. They neglect little warnings until they get used to them. The warnings become louder and louder, and still they do not heed them. Their sickness increases like a snowball rolling down hill. The sickness comes on gradually, and they get used to it gradually, but it ruins their lives just the same. One woman in a hundred, perhaps, is perfectly healthy. Sometimes her weakness is inherited, sometimes acquired by carelessness. In every case, care and Dr. Pierce's Favorite Prescription will give her new life and strength and vitality. It will fill out the hollows in her cheeks, bring color to her lips, brighten her eyes, and make her really and truly a woman. The "Favorite Prescription" is of inestimable value at three stages in the lives of every woman—when the girl becomes a woman, when the woman becomes a mother, and when the mother becomes incapable of maternity. At these times it gives safety and strength. It is the only medicine now before the public for women's peculiar ailments, adapted to her delicate organization by a regularly graduated physician—an experienced and skilled specialist in these maladies. It cannot do harm in any condition of the system. Its sales exceed the combined sales of all other medicines for women.

Every woman should have and read Dr. Pierce's Common Sense Medical Adviser, a great book of a thousand pages, profusely illustrated which will be sent free on receipt of 21 one-cent stamps, to pay for mailing only. HARD TO COMBAT

The Evidence of Our Senses—What East Liverpool People Say is Pretty Good Proof for East Liverpool People.

When we see it ourselves. When our own ears hear it. When our neighbors tell it. Our friends endorse it. No better evidence can be had. It's not what people say in Maine. Or distant mutterings from California. No deceiving echoes here. At East Liverpool talk about East Liverpool people. Public opinion pushed for the public good. There is no proof like home proof. Some testimony at the back of every box of

Doan's Kidney Pills. Can you believe your neighbors? Read this statement made by a citizen:

Mr. R. H. Hawkins, an employee of Schenck's Pottery, who lives at No. 224 Second St., says: "I found Doan's Kidney Pills very satisfactory. I had been taking medicine for my kidneys right along, and if I had found a cure I would have had no occasion to use Doan's Kidney Pills. I was troubled two years or more with distressing backache along the loins, a steady aching pain with quick twinges now and then when stooping or lifting that felt as if a sharp instrument had pierced my back, while the secretions of the kidneys were highly colored, feverish or slightly acid. Work seemed to be a drag; I had no energy, and I am more than thankful that I was induced to go to the W. & W. Pharmacy and get a box of Doan's Kidney Pills. Since taking them there has been no sign of my old complaint coming back. I feel better in every way, can now work with a will, and endorse the medicine that brought this change about."

Doan's Kidney Pills are sold by all dealers. Price 50 cents per box, or six boxes for \$2.50. Sent by mail on receipt of price. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

The Chinese Are Self-Helpful.

The percentage of foreigners in our hospitals, asylums and penal institutions is overwhelming. But the Chinese make little call upon us for philanthropy, and that only for medical help. Little by little these people are coming to see the superiority of our medical treatment, and in cases of severe sickness they will sometimes turn to our hospitals for help. But they ask no other aid from us. If a Chinaman needs any monetary assistance, his countrymen help him without burdening our public philanthropies. It is not uncommon for the men of one clan or friends from different clans to band together to establish a loan fund, every man giving so much toward it week by week. This is loaned to needy men without security or interest, and when repaid it is loaned again and thus many a man is carried through a sickness or set up in business, and outsiders are none the wiser. "The Chinese of New York," by Helen F. Clark, in Century.

Bone Caings.

Mistake is made by many "home dressmakers" in putting on bone caings drawn very tightly. They should be left loose—even wrinkled—as the bones when inserted will bring them to their proper arching shape on the inside. Whalebone soaked in warm water an hour before using under them more pliable. Belt ribbon should never be sewed to the undergarment seams. Bent hooks should be chosen for fastenings, setting on first a hook and then an eye, and so on alternately down the bodice, and it will never unhook of itself. Waist linings are cut much longer than the outside to allow for the stretching of the outside material. The extra length is taken up gradually in the seams.

Perfectly Natural.

Willie—Dobbs, in all my life I never saw a more natural expression of contempt than you have in the face of this woman. Who was your model?

Dobbs—I used two models at the same time. One was an old maid, and the other had had three divorces. The painting, consequently, is a composite.
